Stacko™ Blocks have been developed from the ground up as a superior alternative to traditional timber blocks. Manufactured from high quality UV stabilised materials ensures Stacko™ Blocks will perform to expectations for the long term.

Stacko™ Blocks are safe due to their interlocking design, up to 30% lighter than other products and are load rated with laboratory & independent testing.

- **LOAD RATED - LABORATORY & INDEPENDENTLY TESTED**
- **UV STABILISED**
- **LIGHT WEIGHT - UP TO 30% LIGHTER THAN TIMBER & OTHER PRODUCTS**
- **TOUGH & SAFE - INTERLOCKING DESIGN FOR ADDED SAFETY**
- **STACKS UP TO 150CM (60”)**
ALL OUR PRODUCTS UNDERGO EXTENSIVE FIELD TESTING.

National Plastics & Rubber’s commitment to our customers is to be the Best Industry Provider of polyurethane products to the global marketplace. Therefore, quality and reliability of our products is the concern and responsibility of every person in our organization.

As proof of our commitment to quality and to ensure our customers can depend on NPR products we conduct extensive field testing of all our products.

Our testing procedures push the limits far beyond what the customer will ever require from our products. Knowing our products can stand up to the harshest abuse lets us know you’ll be able to rely on them.
National Plastics & Rubber has the experience and knowledge necessary to meet your needs.

National Plastics & Rubber promotes safe working practices therefore, performing your own risk assessment is essential before using these products.

We specialise in polyurethane, rubber and industrial plastics design and manufacturing for the mining, automotive and manufacturing industries.
